Other Committee Business

The draft Local Law to adopt amendments to the New York State Open Meetings Law regarding videoconferencing was addressed by 1st Assistant County Attorney Jeff Aumell.

In April, Governor Hochul signed an amendment to the Open Meetings Law to allow the expanded use of videoconferencing by public bodies in the conduct of open meetings until the expiration date of July 1, 2024. In order to continue meeting virtually, counties must adopt a local law to opt in. However, the board or committee member must show unexpected and extraordinary circumstances to attend virtually under this law. Also, any board member appearing remotely does not count toward quorum. Aumell will confirm whether attendees can vote virtually and will notify the committee.

Chairman Jones stated that videoconferencing works well and should be allowed. The increase in gas prices and the distance that some supervisors need to drive to attend a brief meeting needs to be considered. COVID

continues to be a factor also.

County Attorney Tina Wayland-Smith agreed with Chairman Jones that it makes sense to allow videoconferencing at least at the committee level, but unless the Emergency Order is extended again, we need to follow the State's law. If the current Emergency Order is extended again, we will hold off on adopting the local law again.

Supervisor Shwartz suggested sending a letter or resolution from Madison County to our State legislators to revise the law to allow videoconferencing to continue. Chairman Jones agreed.

Next Meeting: Tuesday, July 26, 2022 @ 1PM

MADISON COUNTY PURCHASING POLICY AND PROCEDURES

Introduction

The Purchasing Office is a central service office for all Madison County departments.

The Purchasing Agent administers and oversees all purchasing functions of the County and is responsible for coordination of purchases made within county departments.

The purchasing policy and procedures manual is intended for use as a guide to county purchasing methods. County employees involved in the purchasing process should be familiar with, and shall adhere to, the policies and procedures set forth in this manual.

The cooperation of all employees is essential if the County is to obtain the maximum value for each tax dollar spent. While this manual does not answer all questions related to purchasing it does provide the foundation for a sound purchasing system.

The material in this manual is reviewed annually and any revisions necessary will be reviewed by the Administration and Oversight Committee and Madison County Board of Supervisors shall have final review and approval.

This manual is effective immediately upon issuance, and supersedes all previous purchasing policy and procedures manuals.

~~“Goods and services which are not required by law to be procured by political subdivisions or any districts therein pursuant to competitive bidding must be procured in a manner so as to assure the prudent and economical use of public moneys in the best interest of the taxpayers of the political subdivision or district, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances, and to guard against favoritism improvidence, extravagance, fraud and corruption” (G.M.L. § 104-b).~~

STATEMENT OF INTRODUCTION

Pursuant to General Municipal Law (G.M.L.) Section (§)104-b, "goods and services which are not required by law to be procured by political subdivisions or any districts therein pursuant to competitive bidding must be procured in a manner so as to assure the prudent and economical use of public moneys in the best interest of the taxpayers of the political subdivision or district, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances, and to guard against favoritism, improvidence, extravagance, fraud and corruption."

To further these objectives and in compliance with G.M.L. §104-b, the Madison County Board of Supervisors, by resolution, has adopted certain internal policies and procedures contained in this manual governing all procurement of goods and services which are not required to be made pursuant to the competitive bidding requirements of G.M.L. §103 or of any other general, special or local law.

The purchasing function involves the procurement of commodities and services at the lowest possible cost consistent with the quality needed to meet the required standards of the County. Our goal is the

promotion of the County's best interest through intelligent action and fair dealing which will result in obtaining the maximum projected value for each dollar expended.

Article 1—General Provisions

Part A—Purpose and Application

Purpose

The purpose of this Policy is to provide for the fair and equitable treatment of all persons involved in public purchasing with Madison County, to maximize the purchasing value of public funds in procurement, and to provide safeguards for maintaining a procurement system of quality and integrity. Our goal is the promotion of the County's best interest through intelligent action and fair dealing which will result in obtaining the maximum projected value for each dollar expended.

Application

To further our purpose, Madison County has adopted internal policies and procedures contained within this manual, which govern procurement of all goods and services, which are not required to be made pursuant to the competitive bidding requirements of G.M.L. § 103. This Policy applies to contracts for the procurement of all supplies, services, materials, and equipment; as well as professional service contracts entered into by Madison County after the effective date of this policy. It shall apply to every expenditure of public funds by a public agency for public purchasing irrespective of the source of the funds. When the procurement involves the expenditure of federal and/or state grant monies or contract funds, the procurement shall be conducted in accordance with any mandatory applicable federal and/or state laws and regulations. Nothing in this policy shall prevent any public agency from complying with the terms and conditions of any grant, gift, or bequest that is otherwise consistent with law. ~~Article 3~~—GUIDELINES FOR BIDDING AND SOURCE SELECTION

General

1. The purchasing procedures employed shall comply with all applicable laws and regulations of the State of New York, including, but not limited to, the use of prevailing wage rates and the New York State Lobbying Act, and shall be subject to the approval of the Madison County Board of Supervisors.
2. The specifications should be written so as not to restrict competition or otherwise preclude the most economical purchase of the required commodities.
8. When dealing with the procurement of goods and services under a Federal Grant Project, review should be made of the Federal Regulations for Procurement of Goods and Services under Federal Grant Projects which was adopted by the Board of Supervisors by Resolution No. 111 in April, 2007.

IT SERVICES COMPUTER AND TELECOMMUNICATION HARDWARE AND SOFTWARE ACQUISITION

The following outlines the acquisition procedure to be followed for the purchase of computer and telecommunication related hardware or software. As always, a purchase assumes that the user has obtained budgetary approval either as a result of the budget process or through the preparation and approval of needs justification and appropriate budget transfer or approval.

The IT Director will discuss the department's needs for the hardware or software requested. The IT Director will also help you to decide on the correct items to request to perform the intended task and how the hardware and software should be implemented.

Only equipment (computer and telecommunication hardware/software) approved by IT will be allowed on the County's network.

GENERAL PROCEDURE

The following process has been reviewed by the IT Department and agrees that the following will be the Madison County budget and purchasing process for computer and telecommunication hardware and software. All departments must adhere to the following process.

IT Annual Budget Process

1. To ensure compatibility of the intended purchase with other hardware and software in the County, each department must develop, document and review their purchasing plans with the IT Director or designated representative prior to the annual budget.
2. All Quotes must come from the IT Director. The use of New York State contracts are allowed. If a RFP is required, specifications must come from the department and IT.
3. All budgeted dollars for computer and telecommunications hardware/software must be documented in the annual requested budget review meeting between department heads and IT. The budget for all computer hardware and software will be in the IT budget only. IT will create a project based on your request during this process. If they are not identified in detail, they will be eliminated from the budget.

Hardware/Software Purchase Process

1. Department, when ready to purchase the requested hardware/software, will contact the IT Department. A review of the hardware/software need will be discussed to ensure no additional changes are needed since the budgetary process.
2. For department IT purchases, once given quotes from IT, the department will enter a Requisition Entry in MUNIS with the provided quote attached.

3. Any IT purchases that are made directly by the department (either via P-Card, bid, or the PO process) need to be approved by the IT Director.

4. All equipment should be shipped to the IT Department. Once IT has received and verified the items, a schedule for installation will be setup with the department. If the equipment is shipped to the department, department is responsible for verifying items are received (i.e. # of boxes, etc.). Department must contact IT help desk informing of equipment received and to schedule installation.

5. Once hardware/software is installed, an inventory will be taken. If the hardware is replacing existing equipment, the old hardware is to be returned to IT for either obsolete status or redeployment in the County.

6. After installation of all software, the software license with the license number will be maintained at the IT Department for centralized cataloging.

IT can provide a list of obsolete equipment and non-supported software to inform the departments of hardware/software that should be replaced. This will identify what equipment will be supported by the IT Department after the warranty has expired.

GRANTS

2. **Grants:** When applying and receiving grants the Purchasing Office and Finance Office must be notified and sent electronic records. Both offices must have your grant guidelines and award letter or e-mail. ~~Grant purchasing requirements should be submitted to the Purchasing and Finance Offices upon the receipt of the grant for review (ex. grant requiring MWBE purchases).~~

The requisition must contain, in the general description a valid New York State contract number. More information can be found at www.ogs.state.ny.us.

2. New York State contracts may be completed without obtaining a quote, bid, or price comparison if they are deemed in the best interest of the County.

Other Government Contracts Method

1. *Other County Contracts:* As an alternative to securing quotes or following the bid procedures identified herein, a department may purchase from another County's contract, with approval from the Purchasing Agent or his/her designee in accordance with the provisions of the G.M.L. §103, County Law § 408-A(2), and G.M.L. §104(2). Such purchases shall comply with the procedures and terms established by the originating County. Requesting another county contract must be stated, within the general description, specifying the agency name and contract/bid/reference number associated and expiration date.

2. *Piggybacking:* Pursuant to G.M.L. § 103(16), local governments are allowed to "make purchases of apparatus, materials, equipment or supplies, or to contract for services related to the installation, maintenance or repair of apparatus, materials, equipment, and supplies, may make such purchases, or may contract for such services related to the installation, maintenance or repair of apparatus, materials, equipment, and supplies, as may be required by such county, political subdivision or district thereon through the use of a contract let by the United States of America or any agency thereof, any state or any other county or political subdivision or district therein if such contract was let in a manner that constitutes competitive bidding consistent with the state law and made available for use by other governmental entities" (G.M.L. §103[6]).

3. *Cooperative Purchasing Contracts:* A Department must have prior review and authorization from the Purchasing Office to use such contracts before creating a requisition. Part of the review is the justification from the department to utilize the Cooperative Contract form before authorization will be given.

- ☐ Please use CoProcure website to search for all cooperative contracts:

<https://www.coprocure.us/>

4. *Second Hand Equipment*: Surplus and second-hand supplies, material, or equipment may be purchased without competitive bidding from the Federal Government, the State of New York, or from any other political subdivision, district, or public benefit corporation (G.M.L. §103[6]).

2. When there is only one possible source from which to procure commodities and/or services, indicating there is no possibility of competition, a sole source letter from the vendor shall include reasons that make their products and/or services sole source. The Purchasing Office along with the County Attorney's Office will determine that there is no possibility of competition per below. A sole source letter from the vendor shall also include that there is:

- a. There is no competition available;
- b. No other commodity and/or service provides substantially equivalent or similar benefits;
- c. Considering the benefits received, the cost of the commodity and/or service is reasonable as compared to other commodities and/or services in the marketplace; and
- d. It provides unique benefits to the County as compared to others available.

PURCHASING BASED ON BEST VALUE

Declaration of Intent: G.M.L. §103 requires competitive bidding for purchase contracts and public works contracts and has historically required that such bids be awarded to the lowest responsible bidder whose bid meets the requirements of the specifications for the project. § 103 was amended to provide that by enacting a Local Law so providing, municipalities may award purchase contracts which would otherwise be subject to the "lowest bidder" rule on the basis of best value, as defined in State Finance Law §163, to a responsive and responsible bidder or offeror. The Madison County Board of Supervisors hereby determines that it is in the best interest of the County of Madison and its residents for the Madison County Purchasing Agent (hereafter referred to as "Purchasing Agent") to have the authority to award purchase contracts on the basis of best value. Factors that may be used to enact the "best value" option, where cost efficiency over time to award the good(s) or service(s) to other than the lowest bidder, are:

- (a) lowest cost of maintenance for good(s) or service(s);
- (b) durability of good(s) or service(s);
- (c) higher quality of good(s) or service(s); or
- (d) longer product life of good(s) or service(s)

Authority: The Purchasing Agent may award purchase contracts, including contracts for service work, but excluding any purchase contracts necessary for the completion of a public works contract pursuant to Labor Law Article 8, on the basis of best value, as defined in State Finance Law §163, to a responsive and responsible bidder or offeror.

- a. Where the basis for award is the best value offer, Purchasing Agent shall document, in the procurement record and in advance of the initial receipt of offers, the determination of the evaluation criteria, which whenever possible, shall be quantifiable, and the process to be used in the determination of best value and the manner in which the evaluation process and selection shall be conducted.
- b. Where appropriate, the solicitation shall identify the relative importance and/or weight of cost and the overall technical criterion to be considered by the Purchasing Agent in their determination of best value.
- c. The election to award any such contract on the basis of best value shall be made by the Purchasing Agent in consultation with the Department Head and appropriate Legislative committee. In the event that no such election is made, purchase contracts will continue to be awarded to the lowest responsible bidder furnishing any required security in accordance with the Madison County Purchasing Policy.

Severability: If any clause, sentence, paragraph, subdivision, or part of this Local Law or the application thereof to any person, firm or corporation, or circumstance, shall be adjusted by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, or part of this Local Law or in its application to the person, individual, firm or corporation or circumstance, directly involved in the controversy in which such judgment or order shall be rendered.

EMERGENCY PURCHASES

1. *General:* Notwithstanding any other provisions of this Policy, the Purchasing Agent, Department Head, and County Administrator may make or authorize others to make emergency procurements of commodities, supplies, and services. In MUNIS under the general notes, type a description of the emergency and/or reason for emergency

2. Once an Emergency purchase has been approved, the following steps should be taken:

a. An emergency requisition/purchase order form shall be used if the purchasing agent or designees are unavailable. When the purchasing agent or designees are available a requisition/purchase order number will be assigned.

b. An authorized purchase order number will be given to the Vendor;

The department must submit in Requisition Entry in MUNIS and attach the emergency requisition on the next business day.

c. Within ~~five~~ seven days all packing slips/receipts and invoices if available, ~~shall~~ must be electronically submitted in ~~MUNIS and to the Purchasing Office~~ Ticket System/Invoice Entry Request.

3. When it appears that the Purchasing Agent cannot reasonably be notified the purchase may be made, but notification ~~must be within~~ done on the ~~five next business day~~ period shall still be adhered to.
