On average, New York landfills get around 7% sludge; the Madison County landfill was at 11.5% in 2021. The majority of Madison County's biosolids came from the City of Oneida and they also take out-of-county biosolids from the City of Oneonta. The committee provided consensus to limit Oneonta to the contractual 1200 tons of biosolids per year.

Green Empire Farms Crop Turnover

A. Miller has worked with Green Empire during crop changeovers to monitor the permitted daily limit of 375 tons. Miller has given Green Empire Farms potential options for recycling elsewhere. The Committee considered having a meeting with Green Empire to discuss options.
